2. Signs and Markers

The mine ID sign is in place at the contact point of the permit area with the public road access (Carbon County Road 290). The ID sign contains all the required information. All other markers and signs observed were in compliance with the approved MRP and the coal rules.

4.a Hydrologic Balance: Diversions

Most of the snow has melted at the mine site, however, there are several areas in the reclaimed diversions that still contain snow patches. Photographs of the No. 1 mine area and the Lions deck were taken during the inspection that show the reclaimed areas and isolated snow patches.

4.d Hydrologic Balance: Water Monitoring

Water monitoring information for the fourth quarter 2003 is uploaded in the EDI website. Water monitoring is current.
